# New 359 Series Interior Cove Light

**Suitable for a variety of Truck and Trailer Bodies, Refrigerated Truck Bodies, Truck Tool Boxes and Marine Applications.**

Peterson is excited to introduce a new LED interior light that's not just a new product, but an innovative, better way of lighting interior spaces on cargo vehicles.

The new 359 surface mount white interior cove light is a dramatic improvement over traditional recessed ceiling lights. This new light surface mounts, eliminating the need for a mounting pan, in-wall conduit or inaccessible wiring.

Instead of creating a hotspot

directly under a recessed light, a series of 359 cove lights located strategically around the vehicle or trailer interior banishes shadowy corners with a flood of even, distributed light.

These new lights cost less to purchase and install per vehicle than old, recessed ceiling lights - even when equipped with the recommended higher number of lights.

Furthermore, energy consumption is also reduced, thanks to reduced amp draw.

Engineering tests illustrate how ineffectively the traditional arrangement of recessed ceiling dome lights illuminate this 53' insulated reefer trailer.

Designed to mount easily to horizontal and/or vertical surfaces.

The same trailer interior with our new 359 lights installed is much more efficiently lit, despite lower costs up front and over the life of the trailer.

Photometric data proves that the new 359 interior lighting system provides more efficient, more evenly distributed light through the vehicle compare to recessed ceiling units.

## 359 Great White® LED Interior Cove Light

- Long LED interior cove light.
- Distributes light more effectively than traditional recessed dome lights.
- No mounting pan needed, so the R-value of insulated cargo areas is not reduced.
- Easy and versatile surface screw mounting.
- Vertical and horizontal mounting points attach to any flat surface.
- 90mm lead wires

Part Number	Description
359-1	White Interior Cove Light L.O.A. 195mm, 4 LED's, 300 lumens, multi-volt.
359-2	White Interior Cove Light L.O.A. 350mm, 6 LED's, 400 lumens, multi-volt.
359-3	White Interior Cove Light L.O.A. 500mm, 12 LED's, 800 lumens, multi-volt.
